UNCHANGED SINCE 1760 ...
This fine example of 18th century cabinetmaking — is taken from a Shreve, Crump & Low ad that ran on the back cover of *The Magazine ANTIQUES* in 1922. Homer Keyes, then editor, approached B.D. Shreve in that

year about a grand new magazine they were starting. Keyes offered Shreve back cover placement and the rest, as they say, is history. Congratulations on your anniversary. We've backed you for 70 years and look forward to our continuing partnership.
